

Dear Parents,

This semester of Super Friday Geography is going to be full of excitement and wonderful learning opportunities for your student! I am looking forward to teaching your child as we explore the vast regions of this amazing world created by God. During the course of the semester, the class will focus on various geography skills as well as map and globe orientation. We will learn through classroom activities that primarily involve a hands-on approach, using actual maps, globes, compasses, and numerous puzzles and games to reinforce concepts.

Each week, students will have an opportunity to earn a trip to the Treasure Box as we open the class period with our “F.A.C.E. 5” (Fact and/or Current Event for 5 minutes) game. Please encourage your child to participate weekly by bringing to class a written fact or current event about any location around the globe. Each child will share his or her fact or current event, locate the place on our classroom globe or world map, and visit the Treasure Box!

There is a short list of supplies needed to enrich the learning activities of our class. Please assist me by encouraging your child to bring these supplies to class each week as this enhances their confidence and success. Teaching your children is a wonderful privilege; thank you for allowing me to be a part of their education experience!

Fondly,

Mrs. Kathy Carman

SUPPLY LIST

*folder, with pockets, labeled “Geography”

*sharpened pencils

*12-count pack of sharpened colored pencils

*compass, hand-held (I recently purchased a 4-pack for \$2 in the party supply section of Super Wal-Mart—most of them actually worked!)
