INSPIRATIONAL CORNER QUOTE OF THE WEEK:

"GROWTH IS PAINFUL. CHANGE IS PAINFUL. BUT NOTHING IS AS PAINFUL AS STAYING STUCK SOMEWHERE YOU DON'T BELONG."

– N.R. NARAYANA MURTHY
GROWTH OFTEN MEANS LEAVING YOUR COMFORT ZONE – AND THAT'S OKAY. EACH SMALL STEP THROUGH DISCOMFORT BRINGS YOU CLOSER TO YOUR BEST SELF.

THIS WEEK'S CHALLENGE:
IDENTIFY ONE AREA WHERE YOU FEEL STUCK AND TAKE A SMALL ACTION TO MOVE FORWARD. EVEN ONE STEP COUNTS.

STUDENT HAPPENINGS IN OCTOBER

Ms. Bosquez's class celebrated Hispanic Heritage Month with a research project on a notable person.

Ms. Lipstreu's Chemistry classes celebrated Mole Day, in honor of Avogadro's Number, which is 6.02×10^{23} . Technically, Mole Day is celebrated on October 23rd, from 6:02 am to 6:02 pm

STUDENT HAPPENINGS IN OCTOBER

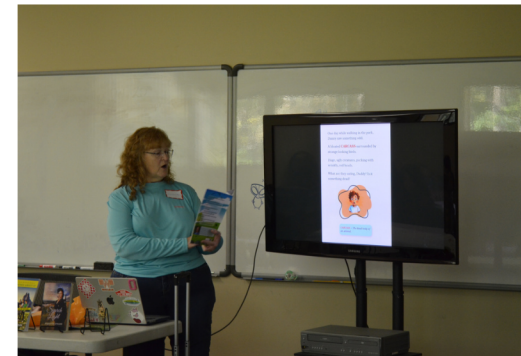

Ms. Walker's Beginning and Intermediate Math class had a Funeral for the Subtraction Sign, a theatrical and engaging way for me to teach students about the pre-algebra concept of "adding the opposite" when dealing with negative numbers / integers (we no longer use the subtraction sign). It

was a great success, and the students helped make it absolutely hilarious and memorable by dressing-up in all black for the funeral, bringing flowers for the tombstone, and some even bringing their own eulogy speech. We closed with a moment of silence. I hope it sticks with them all year (and into pre-algebra, and algebra 1 and 2) and that they remember to rewrite subtraction problems as addition. I might say there was a lot we could "take away" from this, ha.

Ms. Thomas' Digital Design class had a visit from local author Annette O'Hare. Annette is an award-winning Christian author of adult and pre-teen books. Annette desires to reveal God's love to her readers while giving them something to smile about. She shared with the class the important role that good design plays in a children's book. She left all our students with a copy of her children's book.
